

AbetApi.Controllers.Role
Controller.GetFaculty

AbetApi.Controllers.Role
Controller.GetUsersByRole

AbetApi.EFModels.Role.Get
UsersByRole

```
graph LR; A[AbetApi.Controllers.RoleController.GetFaculty] --> C[AbetApi.EFModels.Role.GetUsersByRole]; B[AbetApi.Controllers.RoleController.GetUsersByRole] --> C;
```

The diagram illustrates a dependency or mapping between two controller methods and one EF model method. Two boxes on the left, representing controller methods, have blue arrows pointing to a single box on the right, representing an EF model method. The top box is 'AbetApi.Controllers.RoleController.GetFaculty' and the bottom box is 'AbetApi.Controllers.RoleController.GetUsersByRole'. Both arrows point to the box 'AbetApi.EFModels.Role.GetUsersByRole'.
