

AbetApi.Controllers.Survey
Controller.GetQuestions

AbetApi.Controllers.Survey
Controller.GetQuestionSet

AbetApi.EFModels.Question.
GetQuestions

```
graph LR; A[AbetApi.Controllers.SurveyController.GetQuestions] --> C[AbetApi.EFModels.Question.GetQuestions]; B[AbetApi.Controllers.SurveyController.GetQuestionSet] --> C;
```

The diagram illustrates a dependency or mapping between two controller methods and one EF model method. Two boxes on the left, representing controller methods, have blue arrows pointing to a single box on the right, representing an EF model method. The top controller method is 'AbetApi.Controllers.SurveyController.GetQuestions' and the bottom one is 'AbetApi.Controllers.SurveyController.GetQuestionSet'. Both point to 'AbetApi.EFModels.Question.GetQuestions'.
