

AbetApi.Controller.AbetController.
UploadAccessDB

AbetApi.Controller.AbetController.
UploadStudentWork

AbetApi.Data.IUploadManager.
StoreFile

```
graph LR; A["AbetApi.Controller.AbetController.UploadAccessDB"] --> C["AbetApi.Data.IUploadManager.StoreFile"]; B["AbetApi.Controller.AbetController.UploadStudentWork"] --> C;
```

The diagram illustrates a dependency or call relationship. Two methods from the `AbetApi.Controller.AbetController` class, `UploadAccessDB` and `UploadStudentWork`, are shown on the left. Arrows from both of these methods point to the `StoreFile` method of the `AbetApi.Data.IUploadManager` interface, which is shown on the right. The interface box is shaded gray, while the controller boxes are white.
